Young Child Celebration 2010

Hip-Hop-Ademics - The music that literally wraps (raps) children into learning!

With Hip-Hop-Ademics, Brian Holland uses the mass appeal of hip-hop music to spread a positive and educational message designed to reach young children and instill a contagious and lifelong love of interactive learning.

Hip-Hop-Ademics, LLC. initially began as a graduate school project. While pursuing his master's degree in education, Brian's interest in the rising popularity of hip-hop music and culture combined with his awareness of the declining success of existing academic programs to reach children and instill in them a love of learning. Brian decided to create a program where Hip-Hop and Academics meet. Hip-Hop-Ademics is the result of his efforts.

Brian's program is committed to assisting parents and educators reach children who are used to fast paced, colorful, interactive stimulation

Brian is a graduate of Slippery Rock University with a BS and M.Ed. in Education.
